Mission Statement

Striving to Achieve Real Success

Vision

The STEAM Academy at Stribling Elementary is a hands-on, collaborative, inquiry-based learning community that nurtures students' natural inquisitiveness and their willingness to explore, create, and share to learn. Stribling students master the state standards through the lens of Design Thinking: Imagine, Plan, Design, Improve, and Share. At the STEAM Academy at Stribling Elementary, our students actively work with a spirit of inquiry through cross-curricular, real-life studies relevant directly to their daily lives and their world. We equip students to embrace challenge, solve problems, and rebound from failure so that they succeed at high levels beyond elementary. Our students develop a clear understanding of the lifelong value of Design Thinking and the future economic value of STEAM skills in an ever-evolving global society.
